Fontys Projects

Travel Time Optimization AI Project | JUGO
Feb 2022 – Present
In semester 4 I am doing a specialization in AI. For this project we need to find out what is the best time to travel from work to a client depending on weather and traffic jams.
Key responsibilities:
- Jupyter Notebook
- Pandas, scikit-learn, Matplotlib

Loyalty Program Project | Liquid+
Sep 2021 - Jan 2022
Me and my project group had to choose a company and create a Loyalty Program for them. We chose Lucifer Coffee Roasters. After coming up with our plan, we had to create a website (Full Stack)
Key responsibilities:
- Main Front-End Developer
  - HTML/CSS/JS
  - Figma
  - Customer Journey/Interview/POV/HMW

Improve website | Saunakoning & Webber
Feb 2021 - Jun 2022
The project was from Webber, we had to recreate the website for Saunakoning. This included research (interviews, survey, etc.), design (prototype, mockups, new logo design, etc.) and coding.

Experience

Front Office Employee | Design Hotel Glow
2019 – Present
Key responsibilities:
- Checking guests in/out
- Making reservations
- Answering questions and sharing suggestions
- Answering phone calls/emails

Languages

- Dutch - Native
